Earl Lewis Again
IN CONGRESS RACE

Congressman Earl R. Lewis today announced that he would be a candidate for re-election in 1948.

Lewis returned several days ago from a round-the-world trip, taken at his own expense for the purpose of obtaining first-hand information concerning conditions in the various countries seeking American aid. The knowledge he has acquired will be of invaluable assistance to him in voting on the various foreign relief requests and the debate which will come up next year on the Marshall plan.

The St. Clairsville Republican, a lawyer by profession, served six years as senator in the Ohio legislature, two of them as president pro tem of the senate.

During his first term in Congress he was on the powerful House Appropriations committee and, upon his re-election to Congress in 1943, he was named to the house judiciary committee, which committee handled 52 per cent of all the bills in the house in the first session of the 80th Congress. He is chairman of the subcommittee on patents, trademarks and copyrights.

Must Double U. S.
College Capacity
By 1960, Is Report(By Associated Press)
WASHINGTON, Dec. 15—Federal financial help to double college enrollments by 1960 was proposed today by President Truman's commission on higher education.

Adding a denunciation of minority "quota systems" and racial segregation in schooling to its first report, the 28-member body said the United States not only faces shortages of doctors, teachers and others but stands in peril of fostering an "intellectual elite."

Truman released the 103-page document with a statement urging all citizens "examine it carefully."

"For the great majority of our boys and girls," the report said, "the kind and amount of education they may hope to attain depends, not on their abilities, but on the family or community into which they happen to be born or, worse still, on the color of their skin or the religion of their parents."

The report criticized the "quota system" for admission by which it said many universities deny learning to "certain minorities," particularly to Negroes and Jews.

"This practice is a violation of a major American principle and is contributing to the growing tension in one of the most crucial areas of our democracy," said the commission headed by George F. Zook, president of the American Council on Education.

The report asserted that despite laws guaranteeing equal advantages, inferior education is given to Negroes in the 17 states and the District of Columbia where segregation is practiced.

To perpetuate a system in which the "underprivileged areas and families" supply most of the children, without assuring them full educational opportunity, is "sure to prove disastrous to the level of our culture and to the whole fabric of our democratic institutions," the document contended.

Four southern members of the commission dissented from the findings on segregation, particularly with reference to education in the south. They were Arthur H. Compton, chancellor of Washington University, St. Louis, Mo.; Goodrich White, president of Emory University, Atlanta; Douglas S. Freeman, editor of the Richmond, Va., News Leader; and Lewis W. Jones, president of the University of Arkansas, Fayetteville.

A statement indicating the basis for the dissent will appear, it was announced, in the second volume of Turn to MUST DOUBLE, Page 6

Former British
Prime Minister Dead

(By Associated Press)

LONDON, Dec. 15—Earl Baldwin, 60, thrice prime minister of Britain, died in his sleep Saturday at his home in Stourport, Worcestershire—11 years after he had forced Edward VIII to renounce his throne as the price for choosing to marry an American divorcee.

It was Prime Minister Stanley Baldwin and the late Cosmo Gordon Lang, Archbishop of Canterbury, who told Edward that he must renounce either the throne or twice-divorced Wallis Warfield Simpson, Edward chose abdication.

It was Baldwin, who on Dec. 10 stood before the house of commons with tears in his eyes and delivered the message of abdication from Edward, a personal friend.

Shortly thereafter Baldwin became Earl Baldwin of Bewdley and retired to his birthplace in Stourport to "raise pigs."

Baldwin, often described as the "most English of Englishmen," was a conservative in politics who believed firmly in British-American cooperation.

Baldwin was one of the first Englishmen to realize the menace of Nazism, and on July 31, 1934 electrified the house of commons with the assertion that "Britain's few frontiers are on the Rhine."

Cremation is to take place in Birmingham Wednesday or Thursday.

Two Parked Cars Hit
In Front of School

Two parked cars were damaged Saturday morning by a hit-skip driver, police reported.

The vehicles, owned by Karl W. Day of 216 N. Roosevelt ave. and Robert W. Segesman of Columbiana, were parked on N. Lincoln, near the high school, while the owners attended the Trades Extension classes.

Both were damaged on the left side.

Lacie M. Barton of Alliance told police her car was struck on the left side by another driven by Parker Newhouse of 230 S. Union ave. at 8:42 p. m. Saturday when she was making a left turn off E. State st. into a service station.

Newhouse was attempting to pass the Barton vehicle, police said.

INFLATION
FIGHT HITS
SOVIET NOWGovernment Makes Plans
To Deflate Ruble; Ends
Food Rationings

(By Associated Press)

MOSCOW, Dec. 15—The Soviet government has announced in a decree signed by Prime Minister Stalin that it will attempt to check the inflation with the issue of a new currency tomorrow and, at the same time, will abandon the rationing of all "food and industrial goods."

The Moscow radio broadcast to the Russian people the news of the decree, which was issued by the council of ministers (cabinet) and the Communist party.

(The decree was the first admission by the U.S.S.R. that the controlled Russian economy had been affected by post-war inflation. The Soviet action came 10 days after a statement in Washington by Under-Secretary of State Robert Lovett that something "in the nature of panic buying" had gripped Russia following rumors of impending devaluation of the ruble.)

(American officials in Washington were keenly interested in the move in view of continued Russian insistence on how sound the Soviet was economically as compared to capitalist countries.)

Rates Published
The currency decree stipulated rubles brought to banks for conversion would be exchanged at the rate of 10 for one new ruble.

This exchange must take place between Dec. 16 and 22.

The decree affects persons with bonds, savings accounts and cash. Bank deposits up to 3,000 rubles will be exchanged on a one-for-one basis; accounts up to 10,000 rubles will be exchanged at the rate of one-for-one for the first 3,000 rubles and the remainder on the basis of two new rubles for three old; deposits over 10,000 rubles will be exchanged at the foregoing rate for the first 10,000 rubles and the remainder on the basis of one new ruble for two old.

Holders of ordinary state bonds will receive new bonds with a face value of one ruble for each three rubles of face value of the old bonds. Holders of the 1938 issue of state bonds, which were fully redeemable at any time, will receive one new ruble for each five of face value.

Those who present cash will receive one new ruble for 10 old ones regardless of the amount they exchange, thus making cash holders the chief losers under the reform.

No Wage Changes
The reform does not affect wages. All factories and offices have been ordered to pay their employees this week in new money their salaries for the first half of the month to enable them to get started under the new program.

Announcement of the decree was the first official mention of inflation and speculation in the U.S.S.R. Although a hint that rationing would be abolished was disclosed Dec. 9 in a statement by Georgi Malenkov, a member of the Politburo.

The ending of rationing of all "food and industrial goods" will bring consumer goods under unified price control. The announcement said one object of the program was to check inflation and speculation, which had increased market prices of some commodities to 10 or 15 times their pre-war levels.

The price of bread under the new program will be 12 per cent lower than the old ration price. A 10 per cent cut will take place in cereals and macaroni. Meat, fish, fats, sugar, confectionery, goods, salt, potatoes and vegetables will remain at the present ration price.

Tea, milk and certain other items were increased over their ration price, but reduced well below prices charged in the unrationed "commercial" stores.

Citizens of Moscow received news of the rationing abolition with open joy. When the decree was broadcast and they realized its import, Russians slapped one another on the back and met in groups to discuss developments.

When the decree goes into effect Russia will become the first of the larger European nations to de-ration completely all food stuffs and consumer goods.

GOP Calls For Showdown
Vote On Inflation Bill

He's 1948's Polio Poster Boy

Brown-eyed, golden-haired Terry Tullos, of Laurel, Miss., has been chosen as the poster child for the 1948 March of Dimes campaign to raise money for the fight against infantile paralysis. Three-year-old Terry is the youngest child ever selected to pose for the poster. He was stricken with polio in 1945, before he had learned to walk. He made rapid recovery and, though he still wears braces, is expected to regain full use of his legs. The 1948 campaign of the National Foundation for Infantile Paralysis, seeking \$30,000,000, will run from Jan. 15th to 30. George Perrault of Salem is chairman in Columbiana county.

Phonograph Records To Be
Newest Black Market ItemBy ALINE MOSBY
U. P. Hollywood Correspondent

HOLLYWOOD, Dec. 15 — The black market boys, now that meat and new cars are poor game, have declared open season on phonograph records. When Mr. Petrillo slaps his hand on new waxing Jan. 1, they'll be strictly under-counter stuff.

Walk into a Vine st. bar next year and, instead of the water heater there's a stack for \$10 in the back room, he'll slip you a "hot" waxing of the newest tune.

The black marketers already have buttonholed the small fry in the music world to turn out platters on home recording machines here or ship down to recording companies in Mexico. Those guys wouldn't lose much if they got caught.

Offer Crazy Chance
But only today did the hot waxes dare plant their offer to a big star. Bob Crosby.

The No. 4 son of the Crosby clan dropped his baton at the rehearsal of his radio show, dragged us to a dark corner of the studio and let loose his horrible secret.

"Do you think this should get out?" he whispered, wiping his brow with his index finger. "I don't want to get mixed up in anything."

"Well, some guy phoned he would turn out records of the songs I sing on my radio show. He wanted me to slip him a copy of the transcription we make for re-broadcast of the program. I hung up on him."

He would have no truck, he said, with such skulduggery. Even if he didn't care about it, the principle of the thing, he'd be a dead duck if Mr. Petrillo, big gun of the Musicians' union, caught him.

"I don't think big musicians will make black market records, but little outfits who aren't tied up with regular recording companies or radio shows might," he confided.

Working Overtime
"Anyway, most musicians, like Dinah Shore and Dick Haymes are recording like sixty to build up a backlog for the record famine. Except No. 4 Crosby. He and the Decca people saved things off two months ago, so Bob's croonings haven't hit wax since."

"That's why those crooks picked on me, I guess," he confessed. "They knew I wasn't recording now."

Our spies report that the black marketers are mixing with the song-pluggers who swarm along Vine st. so they can easily nab musicians.

Will Leave Blame To
Democrats If Measure
Isn't Passed At Once

(By Associated Press)

WASHINGTON, Dec. 15—The house Republican high command decreed today a "this or nothing now" vote on their substitute for President Truman's anti-inflation program, and said if their bill fails the Democrats will be responsible for shelving all cost-of-living legislation.

Democrats immediately announced a "last ditch" fight against the measure, putting its fate in doubt.

House Democratic Leader Rayburn of Texas said the Republican strategy which bars amendments from the floor, is "outrageous," and "a strong-arm method."

The Republican bill, built around voluntary measures for holding down living costs, would be put before the house under rules which would give the Democrats no chance to counter with proposals from President Truman anti-inflation program.

Rep. Gore (D-Tenn.) announced Democrats will level their attack upon the GOP bill on three contentions:

1. "It is only an ineffective gesture and a smokescreen for inaction."

2. It is designed "to raise interest rates not only on government bonds, thereby increasing the cost of government, but also an increase on all commercial loans across the country."

3. The anti-trust section "would give big business a big stick over the government."

Under the GOP strategy, decided upon in the office of Speaker Martin of Massachusetts, all amendments would be barred. Debate would be limited, with a showdown vote expected by nightfall today.

A two-thirds vote of the body is necessary to pass the bill under such "take it or leave it" procedure. Now Democrats vote will turn the decision, as Republicans with 245 seats to 187 for the Democrats, do not have a two-thirds majority in numbers.

If the procedure under which house rules are suspended fails, House Republican Leader Halleck of Indiana said there would be no time for further action on the economic front at the special session which ends this week.

"If the Democrats whip this thing," he said, "it's their responsibility for preventing any cost-of-living legislation at this session."

He told reporters that if the bill were opened up for amendments, and the President's price wage and rationing plan was offered as an amendment, "there wouldn't be 25 votes for it."

All that would result, he argued, would be long arguments and a delay that would prevent any action at the special session.

Under the Republican plan, debate would be restricted to 20 minutes for and 20 minutes against the bill which was introduced by Chairman Wolcott (R-Mich.) of the house banking committee.

SCIO POTTERY TO
BE BACK AT WORK
BY FIRST OF YEAR

SCIO, Dec. 15—Lou Reese says by the first of the year they'll be making white dishes again at the fire-ravaged Scio-Ohio Pottery Co., probably at 50 per cent of capacity.

And to have Reese say that makes Christmas season brighter for some 1,300 residents of this Harrison county town where the pottery factory is the lone industry.

Reese sketched future plans for restoring the plant which was hit by a fire that caused an uninsured loss of about \$2,000,000 last Thursday.

About 1,200 persons in a mass meeting in the high school gym Saturday night listened, attentive and applauding, to the man who came here in 1932 to build an abandoned and dilapidated pottery factory into a \$3,000,000 business.

But before the pottery owner started dealing with things to come, he paid a \$72,881 pay roll due that day.

Then he told employees not yet assigned to salvage work to take other work, but to be ready soon to return to jobs he guaranteed to provide.

Most of the audience brought money and bank books in anticipation of an appeal for funds, but Reese said he had funds enough for the reconstruction.

The fire, Reese added, prevented him from distributing a bonus at this year's Christmas party. (He attracted national attention last December by giving out \$705,286 to about 800 employees, and reports were that about \$400,000 was to have been given out this year.)

Before his audience left, he continued, they would receive the favors he had intended to give at the Christmas party — leather purses and key-containers for the women, and leather wallets for the men.

Fire Loss Heavy
CLEVELAND, Dec. 15—One fireman was overcome by smoke and another injured slightly last night in a blaze that caused an estimated \$5,000 damage to a six-story building housing a number of industrial concerns. Cause of the fire was not determined immediately.

U. S. DEMANDS RUSSIAN VEIL BE LIFTED NOW

(By Associated Press)
LONDON, Dec. 15 — A United States demand that the Soviet union lift the curtain of secrecy surrounding her activities in the eastern zone of Germany was expected to open today's session of the Big Four foreign ministers conference.

If Soviet Foreign Minister V. M. Molotov refuses—as he has in the past—to supply figures on Russia's reparations removals from her occupation zone, the conference may come to speedy end.

U. S. Secretary of State George C. Marshall paved the way for the anticipated U. S. demand by issuing a statement yesterday in which he categorically denied that the United States or Britain had received any profit from transactions in Western Germany as charged Friday by Molotov.

He also declared:
(1) The U. S. "long ago" proposed without success—a moratorium on the acquisition of foreign ownership or control of property in Germany.
(2) It has scrupulously carried out in its own zone the moratorium it proposed.

(3) It attempted in vain to obtain "factual statements" on the changes in foreign ownership of property in each of the zones of occupation.

(4) There has not been a single case of American acquisition of German business property during the entire occupation.

Leetonia Plant Work Is Begun

LEETONIA, Dec. 15—Excavating work has started on W. Front st., east of the Leetonia Tool Co. for a building which will house a building supply business to be started by John H. Keyser, local contractor.

The building will be made of concrete block and will be 32 by 100 feet. Completion of the building and the opening of this new enterprise depends largely on the weather, but plans are for operation by spring.

The site is between the Erie and Pennsylvania tr. tracks with an Erie siding available for use. Keyser recently purchased the land from the Erie railroad and the Standard Oil Co. Keyser plans to handle a complete line of concrete masonry supplies and other building materials. The new business will be separate from the contracting firm which he will continue to operate.

Communist-Led French Mob Flees Troops in Panic

French colonial troops advancing with rifles at the ready (lower left and center) send a crowd fleeing in panic at Nice, France, during Communist sponsored demonstrations in support of the general strike. People on sidewalk (top) fall over each other in haste to escape. A few gendarmes who had been outnumbered and unable to control the mob can be seen. A soldier is seizing a cyclist (left), while a demonstrator helps a girl to her feet (lower right). Two score persons were hurt in this melee, similar to those in other parts of France before troops restored order.

Lewis Mine Workers In Session Today

WASHINGTON, Dec. 15—Leaders of John L. Lewis' eleven year old District 50, created to wage union organizing war in any direction, were summoned into session today in Lewis' first move since "disaffiliation" with the AFL.

Whether the conference of regional directors and other lieutenants in the miscellaneous United Mine Workers affiliate meant that the UMWA boss might strike out in a drive to start a third major labor movement remained to be seen.

A shift in the United Mine workers' high command became effective along with its march from the AFL camp. The executive board has designated Thomas Kennedy, 60, former Pennsylvania lieutenant governor and an experienced negotiator, as vice president. He succeeds the late John O'Leary of Pittsburgh.

John Owens, who was Ohio district president, moved up to the position of secretary-treasurer, taking the place of Kennedy who had held the post 23 years.

RESORT TOGS TELL AN INSIDE STORY

Resort fashions with "built-in" shapes forecast well-molded curves in spring and summer beachwear. Forward-looking bathing suit, left, owes its "tiffy-in-the-middle" look to a concealed waistband inside the bodice. An adjustable bra molds the top and a petal-cut peplum and full circular skirt accent the rounded

hipline. New beach coat, center, of deep-pile popcorn terry cloth, is tailored like a cutaway but boasts huge carry-all pockets. Elasticized cotton in a colorful print makes the form-fitting top for the cabana dress, right. Long, full ballerina skirt of this Frances Siler design is a cotton stripe in two tones.

Street Signs For Leetonia

Purchase of 51 Markers Is Made Possible By Boosters Club

LEETONIA, Dec. 15 — The village council has accepted the plan of the Boosters club to purchase 51 new street and intersection markers which are expected to arrive within 90 days for installation by the street department.

Marcus Holt, president of the Boosters, and Jack Ripley made the proposal that the club pay \$485 toward the purchase of the new markers and council pay \$250.

The signs will be molded aluminum, weatherproof and as visible at night as they are in the daytime through the use of a new medium called "Scotchlite."

Household Hints

When children's shoe laces lose their tips, twist the ends, dip them in clear nail polish and let them dry. The same dip can be used to make a stiff tip for cord or heavy thread used in stringing beads.

A mixture of two-thirds boiled linseed oil and two-thirds turpentine is an excellent polish to use at least once or twice a year on varnished and oiled furniture. Apply the mixture with a soft cloth, then wipe off all excess polish with a clean cloth. Polish the surface by rubbing along the grain of the wood until it is thoroughly dry and the fingers leave no mark on the surface.

A salad that can do double-duty as a dessert is made from fresh pear halves peeled, sprinkled with lemon juice, filled with coarsely shredded soft yellow cheese and served on salad greens with French dressing.

Two-thirds sugar, one-third cinnamon is a good proportion for cinnamon toast. The mixture may be kept in a large sugar shaker and sprinkled on hot buttered toast and served immediately or put under the broiler again for a few seconds.

Look Out for Poison!

NEA as a public service pictures a container similar to the 500 one-ounce packages of peppermint leaves containing a dangerous poison still loose in nine states after an announcement by a drug firm in Peoria, Ill., that they were shipped by mistake. Users in Illinois, Wisconsin, Ohio, Kentucky, Indiana, New York, Missouri, Kansas and Pennsylvania are warned to watch for these telling marks on the toxic boxes: "88-OL-48" and "33444."

with cold water first and rubbing gently. Boiling water poured on the stain may also be effective. If the stain does not come out entirely try a drop of lemon juice followed by thorough rinsing in cool water.

Serve up citrus juice unstrained, if you want to get your full quota of vitamin C from the fruit. If you must strain the juice, don't use copper or copper alloy sieves. U. S. Department of Agriculture nutritionists caution. Reason: Vitamin value is decreased when the juice comes in contact with the metal.

When a small piece of cheddar cheese is left over wrap it snugly in a piece of waxed paper. Be sure to fold over the edges carefully and enclose it completely. Store in the refrigerator in a covered dish.

Diet to Shed
Snakes undergo a period of blindness and abstinence from food when shedding their skins. In changing skins, the old one becomes dry and withered, and the snake forces it back from the lips by pushing against a rough substance, until it is then an easy matter to slide out.

ONE MAN'S OPINION

By WALTER KIERNAN
The national poultry show followed the prize fights into Madison Square garden... Purina had Marty Monroe's seat.

And 300 hens were laying eggs where the omlette decision was hatched—
In this case the judges were changed... so the eggs wouldn't set the nod.

Mr. Louis says he'll knock out Mr. Walcott next time... it's differences of opinion like this that make million and a half dollar gates.

Meanwhile Harold Stassen is fighting Harry Truman and Tom Dewey for free... and if he had another hand he'd take on Wallace.

The last I heard of Hank, Russia was still right and we were still wrong.

• SO THEY SAY

I am convinced that the pressure of free countries will generate pressures that will penetrate even behind the iron curtain.
—Secretary of Commerce Harri-

man.
If we could define democracy in a single word, it would be "cooperation."
—Gen. Dwight D. Eisenhower, Army chief of staff.

Our foreign policy has alienated the freedom-loving peoples of the world and in case of war with Russia we would be practically without allies.
—Sen. Glen Taylor (D) of Idaho.

MUST DOUBLE

(Continued from Page 1)

the commission's report. Six volumes in all will be issued, under the general title "higher education for American democracy."

Today's report said that education for freedom, democracy, and world peace should become part of every phase of college life, including the school administration and outside activities, rather than be confined to a few courses or departments.

Boost Attendance

And as for the number of students, the commission said college attendance should be boosted to "a minimum of 4,000,000" by 1960, compared with 2,540,000 this year. A much greater increase, in proportion, was urged for professional and graduate schools. They should enroll 900,000, the commission said, instead of the present 175,000, to reflect "the increasing need of the nation" for such training.

Administrative jobs may need some 2,000,000 more persons in 1960 than in 1940, it was estimated; nearly 1,000,000 new teachers must be recruited and trained between 1950 and 1960 to match the growth of the population and the economy, and to overcome today's deficit; some 26,000 more doctors will be needed than the number now in sight, and the nation will need about 40,000 more dentists than were practicing in 1940.

To accomplish such goals, the commission said, it will be necessary for the federal government to "expand greatly" its financial aid. Scholarships, fellowships and "general support" were mentioned, but the commission said it would offer specific proposals in later reports. Other recommendations made public today included:

1. Free public education should be extended through the first two years of college "for all youth who

can profit from such education." Tuition fees for the last two years in college should be lowered. They have been rising steadily.

2. Vocational and professional training should be better meshed with "liberal" education—"American education is not to fit young gentlemen for leisure in the old European tradition; neither is it meant to turn out 'only specialists and technicians' at the expense of developing well-rounded persons."

3. Hundreds of new "community colleges"—the equivalent of junior colleges—should be established.

4. College curriculums need "sweeping" changes, both to eliminate overspecialization and to provide training for "citizenship in our democracy."

5. An "expanded and imaginative adult education program is urgently needed."

6. Federal aid to education should be so channeled as to help the poorer states bring their educational systems closer to equality with the wealthier states.

Second Guessing

DEPARTMENT OF INFORMATION

Salem High school's Reserve basketball team—the bunch that performs in those 7:30 games each varsity night—is composed 100 per cent of Sophomores this season.

That's a fact that some people do not appreciate when they see the team meeting other reserve squads here and out of town.

In many cases Salem's Reserves don't look as well-drilled, as talented or as physically developed as their opponents. Don't be deceived and don't be critical of Salem or the Salem system.

For, actually, Salem is the school that is doing the right thing with the reserve team system. Many schools are using reserve squads which include almost entirely Junior and Senior players.

This makes for a better reserve team record, but it doesn't achieve the ultimate goal of the system—that of building future varsity men.

Coach Bob Miller is on the right track in limiting his reserve team almost strictly to Sophomores. In this way he's giving the youngsters that invaluable training and he's not keeping some youngster from the training by using Junior and Seniors who may be good ball players, but who have little promise of becoming varsity men within their school careers.

So if, in the future, you see Salem's Reserve taking a licking from a bigger, older and more thoroughly coached opponent, just remember that probably the loss will do Salem more good in three years than the comparable gain the victory gives the foe right now.

DEPT. OF MURDER

Nearly every Salemite who watched Bob Miller's aggregation at Wellsville Friday felt much better than after the Lisbon fray. Although the Bengals certainly weren't an impressive foe, Salem looked so much smoother, so much more potent from all angles and so much more accurate on shooting that it gave promise for later games.

Close observers will note that both Dayton Fairview and Toledo Macomber, two new Salem foes, won games Friday. Macomber licked Toledo Waite and Fairview won over Sidney.

If you've been wondering about those somewhat shoddy red uniforms the locals have worn at the first two ball games, don't be concerned. The team will appear in some beautiful new white affairs Friday. And the outfits include bright red wool knit warm-up pants and jerseys.

The pants are the long kind. Coach Miller was encouraged also by Friday's showing. He felt that the showing by Carl Ciccozzi, Kelly and Tommy Minor points to a more balanced scoring attack.

It was noticeable, for instance, how tightly Payer was guarded the first half until those three men started to hit. Then it became just that much easier for Big Bob to tally in the second half.

Browns Recapture All-America Championship

FRANK LEAHY ON RUMOR LIST AS LOS ANGELES COACH

By LAWTON CARVER.

NEW YORK, Dec. 15—The operators of several football teams reportedly are on the anxious seat while Ben Lindheimer stalls off announcing which of several outstanding coaches will be named to take over his Los Angeles Rams.

A few of the close-up observers still insist that his man will be Frank Leahy, of Notre Dame.

Bernie Bierman, of Minnesota, also is frequently mentioned.

Curley Lambeau, these many years head man of the Green Bay Packers, is said to be headed for the open berth with either the Rams or the All-America conference or the Los Angeles Rams of the National league.

In attendance at the annual winter meeting of the All-America conference in New York, Lindheimer has spent the better part of about 96 hours saying that he doesn't know whether the successor to Bud DeLoach will be from a college campus or from some of the cash-and-carry elevens.

However, he is prepared to spend a large, entire bundle of money to obtain a top flight leader for the Rams, who wound up this season with six wins, six losses and two ties for third place in the Western division of the All-America.

Lindheimer is not among the football promoters who are hurt for the ready cash. The Rams are loaded, as they say, and what's more he plans to spend for improvement of the Rams and to further bolster the Conference.

Despite the comparatively poor season experienced by his club the Rams still are reckoned among the Bulwarks of the circuit. They have no financial problems.

The rest of the league is this way and that way financially, but as a whole is looking tougher all the time in its fight with the National league for recognition.

The Cleveland Browns, which yesterday won the championship, are rated as well-battressed with cash and the San Francisco Forty-Niners have no pressing problems.

The New York Yankees, again runner-up for the league title, have Dan Topping's bankroll to keep them rolling, plus attendance for this season that approached or topped the Giants of the other league.

The Browns' 14-3 defeat by the Yankees for the title at Yankee stadium yesterday was witnessed by 61,879.

The situation elsewhere in the Eastern division shapes up with

SMOTHER YANKEES 14 TO 3 BEFORE RECORD PLAYOFF MOB

By AUSTIN BEALMEAR

NEW YORK, Dec. 15—Cleveland's powerful Browns owned the championship of the All-America Football conference for another year today and it looked like they would continue to dominate the young professional circuit as long as Otto Graham and Marion Motley retain their health.

The Browns defended the title with bone-crushing authority yesterday by flattening the New York Yankees, 14-3, on the frozen, snow-lined turf of Yankee stadium and as usual it was Graham's passing and Motley's running that gave the Browns the edge.

An overcasted throng of 61,879 watched the Conference's Western division titlists score in the first and third periods to spoil the bid of the Eastern champs to win the flag on the same ground where their baseball counterparts had captured the World Series only ten weeks before.

It was even more decisive than a year ago, when the Browns won the inaugural playoff by smothering the same Yankees, 14-8, at Cleveland.

A 52-yard run by the ponderous Motley, longest of the day, set up the first Cleveland touchdown, scored on a sneak by Graham from a yard out after he had flipped a short pass to Mac Speedie to eat

up six of the last seven yards. Motley appeared touchdown bound as he broke into the clear from the Browns' 35-yard line but Harmon Rowe bounced the big fellow out of bounds at the 19. Bruce Alford intercepted a pass from Graham on the next play but it was nullified by an interference penalty which gave the Browns the chance they needed to reach the double stripe.

The Browns added the clincher in the third stanza after Tom Colville intercepted a pass thrown by Spec Sanders and ran it back 12 yards to the Yankee 41.

Motley picked up 16, Graham passed 11 to Special Delivery Jones and eight to Mickey Mayne as the Browns moved quickly to the 4. There Jones took the ball from Graham on a beautiful fake and went over standing up.

It was a sad day for Sanders, who was hobbled by an ankle injury suffered in the final game of the regular season after leading the Yankees to the eastern pennant.

The game was the first in 19 in which Sanders failed to score a touchdown or throw a touchdown pass.

The Yankees crossed the midfield stripe only three times all day, and their lone scoring opportunity came in the second period when Harvey

Buffalo showing an increase in home attendance over last year from 117,000 to 217,000; Baltimore more successful in its first year than had been expected, and Brooklyn and the Chicago Rockets the real weak links.

NEW YORK, Dec. 15—Fearless Fealey's facts and figures:

Bill Veck, owner of the Cleveland Indians, has been huddling with Hank Greenberg, now a free agent, and they certainly weren't trying to figure out how to help the New York Yankees or the Boston Red Sox.

"Hammering Henry" since his release by the Pittsburgh Pirates, is free to sign with anyone. The experts are betting it won't be with the Indians, however. . . . But remember, how one "expert" figured Jersey Joe Walcott had a chance against Joe Louis.

Speaking about Walcott, they're saying now that Trainer Dan Florio and not H. O. (Frits) Crisler of Michigan—should be named coach of the year.

Louis meanwhile is complaining that he was "dried out" before the fight, meaning that he left his body so short of liquid that he ran out of strength.

The real trouble is that Joe no longer has a man named Jack Blackburn in his corner. Trainer Marnie Seamon didn't want Louis to "dry out" too much before the Walcott fight. But Joe had it his own way because now he is surrounded by "yes men." If Blackburn had been there, Louis would have done as he was told. . . .

"Slats" Gill, coach of the Green State football team, credits the East and the Madison Square Garden showpiece with playing a great part in the way college basketball caught on.

"College basketball got its greatest impetus when the East went for it and the doubleheaders were started in the Garden," Gill explained "that's when it started to get national publicity."

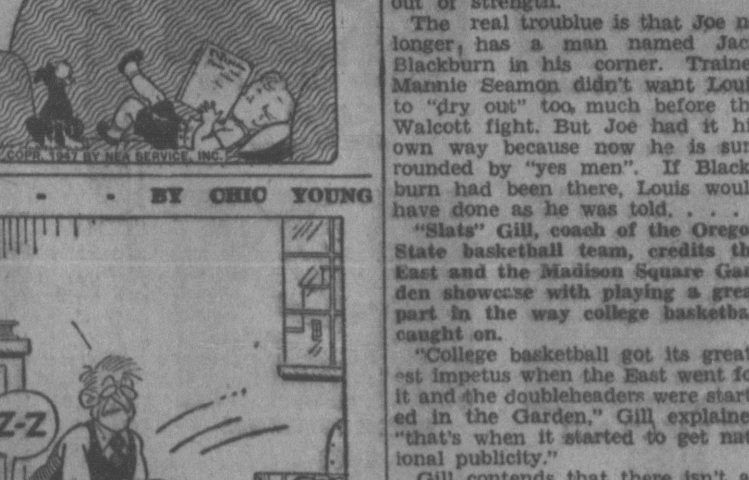

Gill contends that there isn't an indoor court in the country now which is capable of handling the crowds which would turn out for a good college contest. . . . He must have tried to get a pair of tickets for the Garden show.

Tony Pelle, Greenwich Village welterweight, has engaged in more disputed decisions than Tommy Mustard. A guy with a lot of clout, Tony isn't exactly a crowd favorite and the fans like to feel that when Tony wins his opponent cheated.

Things you never knew—til now—and probably didn't care about anyhow. The hottest training combine along horse highway these days is the father-son duel of Ben and H. A. (Jimmy) Jones. That H. A. stands for Horatio Alger. . . . Honest!

Tampa, Fla., got the other bowl cities one better on New Year's day when its Clear Bowl games pite West Chester against Missouri Valley college for the double-bowl championship. West Chester won the Butley Bowl and Missouri Valley plays in the Boys' Ranch Bowl Saturday. Now they try to make it a double for Tampa's Temp. CLEVELAND HOCKEY RATING SLIPS ON WEEKEND TRIES

(By International News Service)

Cleveland's hockey Barons were mired today in fourth place in the American league's Western division after dropping one game and tying one in weekend clashes.

The Clevelanders bowed to the Ramblers at New Haven last night, 5-2, and tied the Hershey Bears, 2-2, at the Arena Saturday night.

The Ramblers pushed four goals across in the last period to snatch the victory. The Connecticut leers had lost eight of their last ten contests and three in a row before stopping the Barons last night.

The loss dropped the Clevelanders six points behind third-place Indianapolis, which defeated the Pittsburgh Hornets, 4-2.

Bob Solinger and Fred Thurler racked up the Barons' tallies in the Ramblers tilt while the New Haven squad was paced by Bing Jukes, who scored twice.

The Hershey Bears routed the Western division cellar occupants, the St. Louis Flyers, 9-3, before stopping the Barons last night.

The loss dropped the Clevelanders six points behind third-place Indianapolis, which defeated the Pittsburgh Hornets, 4-2.

In other Saturday games, Washington beat Springfield, 4-3, Philadelphia beat Buffalo, 7-3, and Pittsburgh tied Indianapolis, 2-2.

The league will be idle tonight. Tomorrow Indianapolis plays at Washington. The Barons return home Saturday to tangle with Washington.

In the National Hockey league, the four leaders in each division wound up with the games last night. Boston deadlocked Toronto, 1-1, while New York and Detroit also battled to a 1-1 deadlock.

The Montreal Canadians came from behind to edge Chicago, 4-3. Only seven points separate the leading Toronto Maple Leafs from the fifth-place Canadians.

The Akron Stars walloped Windsor, 12-3, in an Ohio State hockey league tilt last night. The win was Akron's fifth in six league starts and avenged an earlier loss to the Canadian leers.

News Learns Officials Will Revive Salem Night Relays

The Salem News learned today, through an authoritative source who did not wish to be quoted, that the Salem Night Relays, abandoned here since before the war, will almost certainly be resumed this spring.

One of the largest meets of its kind in the state, prior to its discontinuance at the start of the war, the Night relays date back to the early thirties, when it brought Salem's name to the front in the sports world.

The source said that the High school board of athletic control gave the Night Relays serious consideration at a meeting late last week and virtually decided to bring the event back to Salem this track season if a suitable date can be arranged.

Faculty Manager and Track Coach Fred E. Cope refused to make a statement on the return of the relays today, but he said last night that he "expected the relays to be revived in 1948."

It could not be definitely learned whether the board voted to revive the Salem event, but it was known that Cope has been instructed to see what arrangements on a date here can be made with state authorities.

In order to make the two-day event a success, Salem would have to hold the relays on a date that

wouldn't conflict with any similar large meet.

At one time more than 40 teams participated in the Salem relays, the largest night affairs in the state.

Since the Salem event was abandoned several other schools have begun annual meets of their own. For instance, there are now the annual McKinley relays at Canton, the Ulrichsville relays, the Mansfield relays and several others of growing proportions. None, however, have reached the peak that Salem's famed event did in the mid-thirties.

A definite announcement on the relays is expected from the High school soon.

IN MEMORIAM

In Memoriam—Mrs. Nick Blender who passed away two years ago Dec. 15th.

You were First Lady at our house. You're still the first today. Though you've been gone for two long years

You're in our hearts to stay. God has a way of comforting. A heart that's full of sorrow. He takes away the lonely pain. And tells of bright tomorrow. Our love for you has never waned.

In fact its growing stronger—And only one regret we have. Why weren't you with us longer? Sadly missed by those who love you.

MR. NICK BLENDER and FAMILY.

Panama Canal Seen As 'Bad Risk' In Atomic War

"Many vessels are now too big to go through the locks, and the size of the canal for many years has been a determining factor in limiting size of capital ships." Here the U. S. S. Missouri barely squeezes through.

"The largest conventional weapons would not be a significant threat to security of a sea level canal."—this is the Suez Canal, a sea level waterway.

Brig.-Gen. Joseph C. Mehauff, Governor of the Panama Canal zone, has proposed to Congress that the Panama Canal be converted into an atomic-bomb-proof, sea-level waterway at a cost of \$2,483,000,000. He points out that narrowness of present canal limited the size of battleships and carriers built during World war II. An atomic bomb hit on one of the locks could put the canal out of commission for years, he says, but bomb damage to a sea-level waterway, like the Suez Canal, would mean but comparatively temporary blockade. Map shows present and proposed canals. Much land would be reclaimed through damming-up Gatun lake, and locks, which now raise parts of canal 85 feet above sea-level, would be eliminated.

SANTA CLAUS DELIVERS BY DECEMBER 25th -and so do KAISER-FRAZER dealers!

Yes! Delivery by Christmas! If your family needs a new car why not buy one for Christmas? You can put the keys to a new Kaiser or Frazer on your Christmas tree—and the car itself will be out in front of your home! Yes, if you make up your mind within the next three days, we guarantee that, like Santa Claus, we will deliver by December 25th.

You and yours can't get a Christmas thrill out of a gift certificate! You can't ride this winter in a car you may get next Spring! So, if you are tired of waiting, tired of promises, and tired of driving that old, worn-out, prewar relic you have "made-do" till now, come in! Willow Run production has been stepped up again—and we are delivering now!

Why the Kaiser and the Frazer Give You Unequalled Motor Car Value!

Kaiser-Frazer Corporation builds four, 100% postwar automobiles—the Kaiser, the Frazer, the Frazer Manhattan, and the Kaiser Custom. Each in its price class gives you the greatest value you can get for your money. This you can easily and quickly prove.

The value of a motor car, as any automobile dealer will tell you, is based on four primary points: Appearance, Performance, Reputation, Year Built.

Appearance—Is it modern? How up-to-date will its lines be a year or two from now? Kaiser-Frazer automobiles are unquestioned style leaders. They have established the new trend in motor car design which the rest of the industry is already beginning to follow.

Performance—means more than just plenty of power! It includes economy, roadability, roominess, comfort, and safety on all types of roads. Kaiser-Frazer cars, with 100% postwar chassis, are famous for the economy resulting from high horsepower-to-weight

ratio; for safety that comes with a lower center of gravity; for roominess that is the result of both seats 2 inches more than 5 feet wide; and above all, for their ride—the result of a new distribution of load.

Reputation—In less than 2 years the Kaiser and the Frazer have established a world-wide reputation both for design and quality. Today, more than 125,000 owners can testify that these cars stand up, give extraordinary, trouble-free service under every condition of climate and usage.

Year Built—Any new car you buy this year was built this year. But remember that some cars built this year were designed six years ago! When really new models of these cars come out, they are likely to be very different from the 1941-1947 design! Value for your today's transportation dollars should not be depreciated by your car's own manufacturer! Kaiser-Frazer cars need no changes to bring them up-to-date!

YOU PAY THE REGULAR PRICE • NO TRADE-IN NECESSARY • HONEST ALLOWANCE ON YOUR OLD CAR • CALL YOUR KAISER-FRAZER DEALER AND TAKE A RIDE!

BOTH CARS ARE SERVICED WITH GENUINE FACTORY PARTS, WHEREVER YOU GO, BY ONE OF THE FOUR LARGEST AUTOMOBILE DEALER ORGANIZATIONS IN THE WORLD.
